

SECTION I

PURPOSE

A. The purpose of this document is to publish mandatory procedures for the preparation, utilization, and invocation of Work Items as directed by NAVSEAINST 9070.1 (Series) for repair and alteration of U.S. Navy ships and craft. These procedures are not applicable to submarines nor to the NAVSEA 08 cognizant nuclear propulsion plant system for surface ships as specified in NAVSEAINST 9210.4 (Series). This Appendix may be revised periodically at meetings of the Standard Specification for Ship Repair and Alteration Committee (SSRAC) to reflect changes in policy and procedure adopted by the Committee. Revised editions of this Appendix will be promulgated to each user activity for comments prior to issue.
